Chapter 21– Letter Writing

Ready to write?

The Principal

DAV Public School

Ashok Nagar

New Delhi

23rd April, 20XX

Sub: Request to change section for upcoming session

Respected Sir

Respectfully I wish to state that I want to change my section. The chief reason behind my decision is that there are some exceedingly non-serious students in my current section who don't let me study properly. They disrupt and distract other students most of the time. Even the teachers are fed up of them.

After discussing the matter with my parents, I have decided to change my section. Kindly allow me to change my section to section V-C. I shall be exceedingly grateful to you.

Thanking you,

Yours faithfully

Sunita Agarwal

Class – V- A

Roll No. 23

2. Do it yourself 3. Do it yourself 4. Do it yourself

Chapter 22– Essay Writing

Ready to write?

1. Preserve Environment

The environment means the natural surroundings that we live in. This includes the trees, the plants, animals, mountains, rivers, oceans, sky, etc. The nature around us is the very essence of our survival and sustenance. Therefore it is the responsibility of every citizen of the world to preserve the environment and keep it safe as there is effort to destruct it from many sources.

Our earth abounds in natural resources and therefore has no right to destroy them. Man does not realize that his attitude towards nature will one day make him pay a very heavy price. Man continues to pollute the environment. There is an increase in air pollution because of the growing number of vehicles on roads. The rivers are polluted because factories and houses throw their waste material into the river. Rivers are getting choked with silt, sewage and ether pollutants. Factories processing chemical emit poisonous gases which are becoming a health hazard. Although these industries are doing a great service to mankind, we are also paying a heavy price for this service. We have also destroyed ozone layer partly. We are encroaching on deserts, forests, lakes, rivers, etc. Forest is being razed. Trees are being cut. The vanishing of trees is reducing the oxygen content in the atmosphere and the air is rich in carbon dioxide which is harmful for us. This denuding of forests is steadily eroding the soil too.

But now man is realizing the need to preserve the vital ingredients of nature. Our government has banned the killing of wildlife and felling of trees. Heavy fines have to be paid by those who commit these “crimes”. It is a crime to interfere with nature because no man has the right to destroy this beautiful universe and make it barren for the coming generations.

2. Do it yourself 3. Do it yourself 4. Do it yourself
5. Do it yourself 6. Do it yourself 7. Do it yourself
8. Do it yourself
